

Operational Status for HSC Health Unit

The Hot Spring County Health Department is still open to the public from 8:00 am - 4:30pm, Monday through Friday. Currently we are assessing for fever and asking a series of questions to every person that enters the health unit waiting room, while our staff will have on protective gear. The patient may enter the lobby if clear of fever and questions. We are now able to perform WIC certifications & recertification's via phone however, the parent or designated representative, will still need to come to the local health building to load their WIC EBT card because we are unable to remotely load the card at this time. We will continue to offer other services as usual. If you have any questions please call our local Hot Spring County Health Unit located at 2204 East Sullenberger in Malvern, Arkansas, 72104 or call at 501-332-6972 or fax 501-332-6889.

If you have any questions regarding the coronavirus you can call the Arkansas Department of Health call center during normal business hours at 1-800-803-7847.
